THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthed by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of

Wines, Liquors & Cigars,

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefore adopted the

ONE PRICE SYSTEM,

and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.

Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 100 original Casks of the most approved brands of

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent. for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

Presidential Speculations.

The Madison *Democrat*, the official organ of our State Administration and the dominant party, having recovered from the effects of the late election and comforted itself, as did the man in the Deluge, with the belief that it was "not much of a shower after all," proceeds to canvass the prospects for next Fall's campaign. The *Democrat* considers, in turn, the comparative merits and "availability" of the different candidates, in a very frank and forcible style. It gives the first place, in point of qualifications and services, to Gen. Cass, and says:

"Whoever is President rides into the place upon the horse furnished, saddled and bridled by Lewis Cass. He has done the work—he has paved the way, &c."

But with all these alleged claims to the Presidency the *Democrat* concludes that "Lewis Cass is *not* the available candidate," and so quietly puts him out. Senator Douglas is next summarily served in the same way, and put aside with the intimation that "his time is not now." "Old Sam Houston" is trotted out in turn, commended for his fine points, and assured that "if every man knew him as he is" he would be elected triumphantly; but this condition being physically impossible and "scandal having played scurvy tricks with his name," the *Democrat* decides that the hero of San Jacinto is placed, by party policy, "among the impracticables." The two Senators from this State, each of whom has been named in connection with the Presidency, are next summarily shoved off the track in this fashion:

"Dodge's 'loved Dodge,' and the 'idol of the Young Democracy, Walker,' are candidates of county conventions and school district debating [illegible]. The man who would seriously move either of them in a National Convention for the nomination for President, would be set down as a *[illegible] or a fool, by sensible men.*"

"Call you this backing your friends?" Surely our two democratic Senators had a right to expect better treatment, if they could not secure a hearty support, at the hands of their own party organ!—However, that is their business, not ours.

The *Democrat*, having thus disposed of Cass, Douglas, Houston, Dodge and Walker, compares the two remaining prominent candidates, Buchanan and Marcy. The former is objected to as "*not* the candidate of the united democracy of "Pennsylvania," and a doubt is expressed whether he could carry the popular vote of his own State; while it is assumed that Gov. Marcy "would go into the Convention with the entire unanimity of the party in New York." Hence the *Democrat* concludes that "William L. Marcy "will be the next democratic candidate, and by "consequence, the next President of the United "States." We think both conclusions will prove unfounded, as the assumption that Gov. Marcy will command the united support of the Hunkers and Barnburners in New York. There is no man, Gen. Cass alone excepted, whom the Barnburners of the Empire State hate so intensely and would oppose so bitterly as William L. Marcy. He is the head and front of the old Albany Regency, and has been again and again denounced by the Barnburner organs, as chief among the "*Assassins of* Silas Wright." Gov. Marcy could not carry New York tho' he would come nearer to it than any of the other candidates named by the Madison *Democrat*, except, possibly, "our own loved Dodge."

New York Elections.—The official canvass by the State officers can alone solve the question as to who is elected Treasurer, and Attorney General in New York. For the former office Mr. Cook, the whig candidate, has an apparent majority of about 100, and for the latter Mr. Chatfield, the Loco nominee, is from 2 to 300 ahead on the returns as published. But there were so many irregularities in the ballots and in the canvass, that the final result is still involved in doubt. The Board of Canvassers in New York City, have thrown out the returns from the 2nd district of the 14th Ward, because the Inspectors, Clerks and challenged voters were all sworn upon "Ollendorff's new method to learn French!" instead of the Bible. This decision puts Mr. Ullmann ahead of Mr. Chatfield, and increases Mr. Cook's majority to some 100. It is stated also that in the First Ward of Buffalo, where the Locos had 200 majority, the Inspectors, Clerks and challenged voters were sworn upon a copy of Watts' Hymns. We think that is pretty well for the enlightened "Empire State." The Buffalo *Commercial* of Monday last says that allowing to each of the candidates for Treasurer *all the votes* of every sort cast for them respectively, Mr. Cook, whig, beats Mr Welch, democrat, just *three* votes. This, in a poll of 400,000 and upwards, will pass for pretty close work!

Temperance Legislation.—The Mineral Point *Tribune*, which is in favor of adopting in Wisconsin the anti-Liquor Law enacted last winter in the Maine Legislature, thus replies to our remark that however well such legislation might answer for Maine we did not think it either politic or practicable for Wisconsin:

In a place like Milwaukee, where men are mobbed for being temperance men, and where such mobs are headed by the highest civil authorities of the city, it may not appear politic or practicable, but in other portions of the State, it will be found different.

Very well. "In other portions of the State" then, let it be tried on. We do not ourselves believe in the coercive system of legislation, but are entirely willing that those who do, should be accommodated to their heart's content.

The Queen of Song.—Jenny Lind and her party are at Boston, giving a series of Concerts. Thence, the Nightingale goes to Philadelphia, and returning to New York will give a few Farewell Concerts prior to her departure for Europe. Kate Hayes, having re-organized her Musical Troupe, left New York last week, for a professional tour. She sings at Albany on Friday and goes thence to Utica, Rochester, Buffalo &c. Parodi, with Patti and Strakosch, has met with triumphant success in St. Louis. Her Concerts have been crowded every night.

Death of Dr. DeKay.—Another eminent physician and scientific scholar has just died at New York. Dr. DeKay, in addition to his high standing in the medical profession, was a Naturalist of great acquirements. He wrote two volumes of the Natural History of New York, relating to its Ornithology. He was a brother of Com. DeKay, formerly in the service of one of the South American governments—the gentleman who commanded the frigate *Macedonian*, which carried out a load of breadstuffs to the famishing Irish, in 1846.

Travelling Facilities.—Messrs. Duncan, Sherman & Co., of New York city, who have just established one of the largest private Banking houses in the country, are prepared to furnish those who desire to travel, with Letters of credit upon the European plan, for any sum not less than £10.

The Specie Drain.—The U. S. Mail Steamer *Baltic*, which sailed from New York for Liverpool on Saturday last, took out *one million, one hundred thousand dollars in specie*. This makes a total shipment for the week of $2,390,764, and for the year thus far, $37,923,915!

"Massachusetts is Democratic!"—Under this heading the *Wisconsin* gives the announcement that "the Coalitionists have a majority in "the State Legislature sufficiently large to elect "a Governor." This it appears, according to the *Wisconsin*, that Free Soil in Massachusetts is "Democratic," while the same authority denounces it in this State as "abolition."

THE VOTE OF THE STATE.

Our Madison exchanges furnish us with tables nearly complete of the vote at the recent election. Leaving out the counties of Chippewa, La Pointe and Door, the aggregates stand as follows.

		Total vote.
Governor.		
Farwell, W.	22,301	44,032
Upham, L.	21,731	
Lt. Governor.		
Hughes, W.	16,559	
Burns, L.	24,499	44,660
Spalding, F.S.	3,011	
Sec'y of State.		
Wright, W.	18,616	
Robinson, L.	21,259	42,783
Holton, F.S.	2,908	
Treasurer.		
Crawford, W.	17,144	
Janssen, L.	23,790	43,601
Willard, F.S.	2,667	
Att'y Gen'l.		
Truesdell, W.	16,638	
Estabrook, L.	23,258	42,675
Payne, F.S.	2,779	
State Sup't		
Lord, Ind.	19,474	
Ladd, L.	21,722	41,196

Every county in the State but six, gives a majority *for* Banks. The aggregates are as follows:

For Banks,	30,160	
Against,	9,026	39,186
Majority,	21,134	

The aggregate vote for Presidential electors in 1848 was 38,216. The increase on Governor this year is 5816, very much less than it would have been on a full vote. While some of the counties have very largely increased their vote, many of them have cast less votes than in 1848, although the census returns showed them to have greatly increased in population. Milwaukee county casts nearly 1000 votes more than it did in 1848, Waukesha 300 more, Marquette 900 more, Fond du Lac, 500 more, Dodge 750 more; while Racine and Kenosha give 600 less than Racine in 1848, Rock 200 less, Iowa 500 less, Walworth 400 less, Washington 100 less, &c. The vote on Bank is nearly 5000 less than the aggregate vote on Governor.

Railroad Meeting at Madison.

Our friends in Dane County are moving in earnest to secure the speedy completion of the Milwaukee and Mississippi Rail Road to their section of country.

A communication from the President of the Company was laid before the Board of Supervisors last week soliciting them to take early action, and the necessary steps to subscribe $150,000 of stock in said company, and issue their bonds for that amount, payable in ten years, with annual interest not exceeding ten per cent. The *Statesman* says:

"Messrs. Catlin and Botkin were invited by the Board to address them on the subject, and accordingly on Thursday evening, the 13th, speeches were made by these gentlemen, the former in favor of the proposition, the latter against it. Mr. Catlin was listened to with great interest, and the prejudice existing in the minds of many against the Company, was entirely removed."

Col. Botkin spoke against the measure, and another meeting was held at the Court House, at which there was a large attendance and several addresses. At the conclusion, the house voted unanimously in favor of the proposition. Meetings are to be held throughout the county. We find a call published for the people of Dane Co. to hold a public meeting at Madison on the 19th of December, to discuss the measures proposed to them to aid in advancing the completion of the road. The Madison papers are filled with cogent arguments for the measure, and we shall endeavor to give our numerous readers in that county a perusal of some of them.

Distressing Casualty—Two Children Burnt.—An alarm of fire for the Third Ward was sounded between one and two o'clock yesterday afternoon. It proved to be a small shanty, close upon the Lake Shore, occupied by a poor and industrious Irish widow, named Fitzpatrick, and her two young children, 2 and 5 years of age. The mother had gone off to wash for the day, leaving her children in charge of another woman. About one o'clock this woman, having first made up a large fire in the [illegible] and *locked* the children in the Cabi[illegible] premises on a brief errand. Some half h[illegible]erwards the shanty was found to be on fire; the flames bursting out on all sides at the first alarm. One of the persons earliest on the ground broke in the front door, seized and dragged out the eldest child, dreadfully burnt, and attempted to save the other, but it was already past all human help. After the fire was subdued and the crowd of spectators nearly dispersed, the mother, catching the alarm afar off, came flying to the spot, frantic with grief and terror. She found her humble home in ashes, her little ones burnt to a crisp, her home indeed desolate, and her cry of agony, as she bent over the ruins, went to the hearts of all who heard it. It was with difficulty that she could be forced from the spot by sympathizing and sorrowing friends. The eldest child was taken to St. John's Infirmary, where it lingered in great pain till 5 o'clock, when its spirit too took wing. We trust that the poor widow, who has lost her all by this sad calamity, will find open hearts and hands among our citizens.

Wisconsin Election.—It is by no means certain, from the latest intelligence, that Farwell, the Whig candidate for Governor of Wisconsin, is elected. A despatch dated Milwaukee, Nov. 26th, states that the official returns thus far received, whittle his majority down to about 600, with democratic counties to hear from. This looks very much as though he might be defeated yet; as in this State, it is a tight fight to get anybody satisfactorily elected on either side.—*Buffalo Express.*

Don't be alarmed, neighbor of the *Express!* The thing is done, safe and sure.

President's Message.—The Albany Register of Saturday last says:

The President's Annual Message, it is stated, will be sent on under seal to the several Post-offices in Baltimore, Philadelphia, New York, Albany, &c., in advance, as it was last year, to be delivered to the newspaper offices the moment it is sent in to Congress. This arrangement last year worked admirably, and it saves the expenses to government of expressing the message, as it used formerly to do.

We hope that the "&c." may include Milwaukee, this time.

For the Daily Sentinel.

Mr. Editor:—I wish to call the attention of mechanics and others, to Gilett's new Planing Mill at Sweet's Warehouse.

I have used considerable planed lumber from that Mill this season, and until recently, the quality of its work was no better than that of other Machines, but now by the skill of Mr. Holbrook, a mechanic experienced in working the Woodbury Planing Machine, the work is very superior, and no better work can be done by any machine. In fact, it is far superior to any that I have ever seen.

Those using planed lumber will do well to try the work done by the Stationary Cutting Knives, as they will leave very little, and generally no use for the smoothing plane after lumber has been planed by that machine.

Dreadful Railroad Accident—Three Lives Lost.

Boston, Saturday, Nov. 22, 1851.

Baltimore, Nov. 20, 1851.

Horrible Accident.—A horrible accident occurred yesterday, at Texas, in Baltimore county, a few miles from the city, in the marble quarries from whence all the stone for building the Washington Monument is obtained. The section of an immense shaft had been quarried, and was being raised to the side of the railroad, by means of shears, when the tackle broke, and this immense stone, weighing not less than twenty tons, fell on two of the workmen, brothers, named Buckley. One of them was ground into an impalpable mass, and scattered on the clothing of his fellow workmen, while the other had both his legs cut off above the knees, and cannot possibly live.

Particulars of the Terrible Calamity at the Ninth Ward School, N. Y.

Fifty Children Killed!

SIXTY OR SEVENTY INJURED!!

Our New York exchanges come to us filled with the details of the heartrending occurrence at the Public School in Greenwich Avenue, whereby some fifty children were suddenly killed, and a very large number more seriously injured, many of whom are not expected to recover. We compile the following account from the *Tribune* and *Times* of the 21st and 22d:

The Building.—The house fronts on Greenwich avenue. An iron fence passes along the walk, about ten feet from the building. At the centre is the entrance—two doors together, one opening on each side. Passing through those doors you stand in an area about ten feet deep and twelve wide. This is flagged with stone. A door at the back of it opens directly upon the play-ground, which is covered by the building and flagged.—At the right hand of the area, against the wall, commence the stairs. The first three steps are winding, then four are straight—the seven bringing you to the first platform or landing-place.—Then come four or five more, to bring you upon the first floor above the basement. Upon the first floor was the primary school. The stairs are carried in the same way, by six or seven steps a time, from one landing-place to another, and from one floor to another.

Upon the *second* floor above the basement, (generally called the third floor,) was the room in which the first alarm occurred. As you leave the stairs there are two doors, opening into school-rooms occupied by girls and communicating by sliding-doors. From the room on the *right* a door opens into another room, much smaller, with desks for about sixty girls.

At the time of the accident there were 1,856 pupils in attendance, as follows:

In the Primary Department, 2d floor,	763
On the 3d floor,	513
In the Male Department. 4th story,	580
Total,	1,856

The Cause.—It was in the room last mentioned that Miss Harrison was engaged in teaching. She is a young lady, and has been in delicate health for some time. She was hearing a class recite, and of course was talking—the class reciting and the others busy with their studies. She was seated in a chair upon a platform raised some ten or twelve inches from the floor, when she was suddenly attacked with *paralysis* of the tongue and face.—Her speech was stopped of course, and that at once attracted the attention of the school. Looking at her they saw her struggling to speak, with frantic gestures and terrible contortions of countenance. Miss Harrison, who was perfectly conscious all the while, motioned to one of the larger girls, who was standing up in front, to open the window; but her gestures were not understood, and only had the effect of increasing the alarm which had already fallen upon those in the room. The girl whom she was trying to address, threw up her hands as if to ward her off, and uttered piercing screams. The whole crowd of girls joined in her terror and screaming. Just at that instant the great fire-bell close by struck an alarm. The boys on the floor above, hearing the screams and the fire-bell, supposed that the building was *on fire below them*, and rushed for the doors to make their escape.

Firemen and others, meantime, hearing the alarm for that District, and hearing the screams of the girls, supposed that the school-house was on fire, and rushed in, calling out "*Fire*," and adding to the terror of all who heard them. The girls in Miss Harrison's room rushed for the doors. One door opened from that room into a back-stairs entry, and some of them went out there. The most, however, rushed into the outer school-room, and had to go through that to the door opening upon the front stairs. Some of the teachers, however, closed that door and held it fast. The girls then rushed to the sliding-doors which communicated with the next room, opened them, and thus made their way to the main stairs, where they were met by the living tide that was pouring down from the rooms above, and swept by it into the pit of death below.

The stairs led, as we have stated, from the floor at the entrance to the top of the building, being winding stairs, though not circular. Standing upon the first floor at the entrance, one can look directly up to the top. Along the outside of the stairs, running all the way up, was a banister, made of wood, with a heavy rail, three or four inches in diameter each way, resting upon the steps by a clete, which was nailed on outside. At the bottom of the stairs was a stout wooden post, five or six feet high, to which the banister was affixed. This post was simply nailed to the side of the steps. The space between the banister and the wall is about six feet, and of course it was densely crowded.

The stairs began to give way at the bottom. What caused it, is matter, as yet, of mere conjecture; it seems scarcely possible that there should have been, at that time, any pressure of children sufficient to break down the post. The one of the two outer doors was open, sufficiently to relieve any pressure which is likely to have existed at that time. We have heard another cause suggested, and it is so probable in itself, that it ought to be made matter of special investigation.

The alarm of fire had been raised outside.—Several firemen and others rushed in, and by their shouts and directions to the teachers and scholars to run for their lives, added greatly to the panic and confusion. The stairs at the bottom were undoubtedly full, and firemen entering the building could not ascend them for that reason. We have heard it said that some of them caught hold of the bannister and climbed up outside; and that their weight, being brought directly upon the bannister, from the outside, broke them down. The moment the bottom part gave way, the strength of the bannisters were gone. The pressure of the children upon it would break it down; and thus they were pushed off by the crowd behind. On section after another of the bannisters giving way of course great numbers of those rushing down must be hurled over the edge.

The children fell over the side of the stairs upon the lower floor—some of them from a greater and some from a less distance. Scores of boys who rushed out of the third floor school-rooms, in their fright jumped over the banisters. In this way the area was instantly filled, and there they lay, one upon another, to the depth of ten or 12 feet. Of course many were suffocated; most of them died, probably, from that cause. The alarm spread. The fire-bells tolled. The police of the Ninth Ward (only a hundred yards distant) rushed to the spot; the firemen were there in a moment but it was a very different thing from fire that called for their services. When they first arrived the children were still throwing themselves down the stair-ways; a hundred were piled in frightful destruction at the bottom; the very doorway was barricaded with a pile of dead and wounded.

Help was sent for; the police and firemen rushed up the stairs and forced the frightened children back, stationed a guard, and then returned to save the wounded and dying.

At this time the news began to spread, and parents and friends came in breathless haste to the place, and the heart-rending scene which followed baffles description. As each lifeless or wounded body was borne to the Station house, it would be followed by a dense crowd of persons, all striving to assure themselves that it was not their relative, and when some distracted mother recognized the bleeding form of her beloved child, her shrieks of agony were enough to move the stoutest heart to tearful pity.

But we need not dwell upon these painful scenes. They continued up to a late hour of the night, until the fate of all had been ascertained.

The result of this awful catastrophe, as nearly as we can ascertain, is as follows:

The number of children killed is forty-four or forty-five.

The number positively known to be wounded is more than sixty, of whom we give the names of the greater portion.

Many of the teachers acted with great presence of mind, and a prompt decision, which undoubtedly saved scores or hundreds of lives. Although there were some seventeen hundred of children in the school, they were in different rooms, not more than one or two hundred being in any one. The panic, however, owing to the screams of the girls in Miss Harrison's room—the fire-bell alarm and the shouts of firemen and other persons outside—spread instantly through the whole building.

Miss Harrison very soon recovered from the attack of paralysis, and at 9 o'clock in the evening was nearly well. The full extent of the calamity had not been told to her. She says she was perfectly conscious all the while, and would have given worlds if she could have uttered a word to quiet her scholars.

The calamity is due in a very great degree to the thoughtless firemen and others, outside, who raised the alarm of fire and surrounded the building with shouts and cries well calculated to create a panic among so large a number of children. Some of them, without waiting to ascertain facts at all, rushed into the school rooms and told the teachers and children to rush out or they would all be crushed by the falling walls.

About 40 were taken out quite dead, and one or two others died immediately after being released. The bodies were taken to the Police Station, and the news spread like wild-fire throughout the whole neighborhood. Thousands of persons rushed to the spot, and mothers and fathers, frantic with grief, ran wildly from place to place, to find their children.—One poor woman went into the Station-House and found two of her children dead, and her cries and lamentations were the most piteous that human ears have ever listened to. One after another came to the Police Station, and found the bodies of their dead children, and by about 7 o'clock, 38 of them were recognised and taken to the houses of their disconsolate parents, and shortly after, the other four were also conveyed away, making the whole number killed 42!

At an early hour this morning Capt. Lovett, Capt. Seabring, Capt. Taft, and a number of their men, again repaired to the building where the shocking accident occurred, and upon searching in and around the well hole, they found a cart load of children's wearing apparel, consisting of shawls, bonnets, hats, shoes, carpet-bags, and other articles belonging to the dead and wounded children, all of which were conveyed to the Station House at Jefferson market, where some of the garments were recognized by heart-broken fathers, mothers, sisters and brothers, many of whom called at the Station, and when viewing the heap of clothing torn from the unfortunate little ones, in extricating them from the well hole, they burst into a flood of tears—thus presenting a heart-rending and affecting scene.

It is apparent enough now that the construction of the stair-case was bad—that its being a winding stair—so that one falling from the top over, or through the railing, would of necessity fall to the bottom, is enough to condemn it; and yet this kind of stairs is very common in all our public buildings. It is clear, too, that the bannister were not strong enough, and this is a point which ought to have been guarded against.

A Coroner's Jury was impannelled, justice Bleakley and Ald. Ball acting as Coroners. The Jury proceeded to view the bodies of the dead. The *Tribune* says:

The Jury indeed had a painful duty to perform, a visitation of mourning that lasted from about noon to six o'clock, sufficient to harrow the feelings of the toughest heart—and delicately and nobly did they perform it, though, as we mentioned before, some were so deeply affected that they were unable to ask the brief but necessary questions that were deemed proper to be answered. No other conversation was heard from their lips during the above time but on the subject which they were investigating, as if their minds were entirely absorbed by its magnitude, or their feelings so excited that nothing else could enter into their thoughts. A remark on the appearance of one of the little victims would be followed by a word of sympathy for those who felt the loss more deeply than any one else; this would bring out an expression of like feeling from another, and thus it would continue until the next visit changed the subject of the theme, but not its tenor.

* * * * * * *

The *Tribune* of the 22d says, in its last evening's edition:

We are still unable to satisfy ourselves of the number actually killed, but as near as we can give it there have been FIFTY or FIFTY-ONE children slain, about forty-five of whom were visited yesterday by the jury. The number of injured is supposed to amount to between SEVENTY-FIVE and EIGHTY.

The remains of most of the unfortunate children who were hurried into Eternity by the recent disaster in the Ninth Ward, were removed this afternoon from the residences of their afflicted parents, and conveyed to their last resting place in Greenwood Cemetery.

Arrival of the Atlantic.

Kossuth in Manchester.

STEAM TO GALWAY.

IMPORTANT FROM FRANCE.

New York, Nov. 22.

The steamship Atlantic, Capt. West, arrived at quarantine about midnight, and reached her wharf at 1½ o'clock this morning, after the extraordinary run of 10 days and four hours. She left Liverpool on Wednesday, the 12th inst.

This is one of the quickest trips on record, when the season of the year is taken into consideration.

England.—The Times describes Kossuth's reception in Manchester as the most enthusiastic he has met with since he landed on our shores.

Gov. Kossuth has had another great reception at Birmingham. The city was in a state of great excitement, and the day was observed as a complete holiday. All business was suspended.—The weather was clear and fine, and every thing tended to render the reception magnificent. M. Kossuth started from London by the express train, and was received at the station by M. Brayres, who conducted him over the establishment, and his arrival was welcomed by a great number of personal friends; amongst these was the Italian leader, Jos. Mazzini, who shook M. Kossuth cordially by the hand. When it became generally known, that M. Mazzini was on the platform he became almost as popular and as much the object of curiosity, as the Hungarian himself. They were cheered most tumultuously.

M. Kossuth was conducted to the Queen's hotel, where a splendid lunch had been prepared.—After half an hour's stay, a carriage drawn by white horses, proceeded at a rapid pace to the small heath which was the rendezvous of the procession. Here the reception was enthusiastic.

Ireland.—A large meeting was held in Galway on the 8th inst., of town commissioners, relative to the new line of steamers about being opened between that port and New York. The meeting was addressed by an American gentleman named Wagstaff, who came over to Galway with the object of establishing the proposed line. He made a very clear and able speech. He stated that the vessel which was now preparing to start, would leave New York for Galway, and he had no hesitation in saying it was one of the fastest and strongest steamers which had sailed on the Ocean. She would sail on the 13th of December from New York, and arrive at Galway on the 23d. Every proper arrangement should be made for the accommodation of passengers, of all classes, and the charge for steerage passengers should be £6, including food on the voyage.

France.—The proposition of the questions which have caused so much sensation, may be regarded as rejected. 215 members of the majority have declared that they will oppose it in the chambers, and a great portion, if not the whole of the Republican party, will do the same.

Gen. Magnan presented to the President of the Republic the officers of the regiments newly arrived in Paris. The President addressed to them a short and warlike speech.

The democratic socialist committee of Paris has declared it will not take part in the election of the 30th inst., in consequence of the law of the 31st of May, which curtails the franchise. It recommends all republican electors to do the same.

Nov. 11.—The democratic socialist election committee met yesterday for the purpose of taking into consideration the course the democratic party should pursue at the approaching Paris election. The Commissary of Police, accompanied by four superior agents, having taken up a position in the place of meeting with the view of watching the proceedings, the committee declared unanimously that it could not deliberate in the presence of the delegates of the Government, and retired. There was not the slightest disturbance.

The address of the President continued to excite observation. Paris was never more tranquil.

Prussia.—Berlin, Nov. 7.—The official Gazette contains an edict issued by the Minister of Public Instruction which places the Prussian schools and teachers under the control of the clergy.

The Correspondence Bureau says Austria has instructed her officers to keep at the disposition of the Germanic Federation her fleet in the Adriatic. She and Bavaria, and other minor states, refuse to pay their quota towards the support of the German navy.

Prussia intends to solemnize the compromise, and afterwards to organize the North Sea squadron in a manner more conformable to the situation of German officers, as they now exist. In the meanwhile Prussia allows the Germanic federation to dispose not only of her army, but also of her navy, which in the space of ten years will be enabled to compete with the navies of other states. Though this may prove true, as Prussia possesses the means to accomplish what she intends, we repeat that a Baltic squadron will be of no use to Prussia, if she nor her German allies have no squadron in the German ocean.

Vienna, Nov. 3.

Count Guerrieri and Baron Sutte, of Verona, have been found guilty of high treason; the former for having received an anonymous letter treating of the movements of the Revolutionary party, and the latter for having accepted an invitation to the house of Guerrieri, for the purpose of perusing and afterwards burning that letter. The military court adjudged ten years imprisonment to the Count and two years to the Baron. But Radetzky, it is said, has seen fit to commute the period one-half in the case of each.

A Vienna paper announces on the authority of letters from Constantinople, of the 25th ult., that Ali Pasha, the Minister of Foreign Affairs, had given in his resignation in consequence of the bitterness of opinion which had arisen between the Grand Vizier and himself on the subject of the foreign policy of the Porte.

London Money Market.—Money continues very easy at previous rates. Consols have advanced and closed at 98⅛a98⅜. Shares are not so firm.

The Liverpool market for breadstuffs less active than at the sailing of the Africa, but the prices current had been fully sustained. Canal flour 18a19s; Canadian 18s 6da19s; Philadelphia and Baltimore 18s 6da19s.

Indian corn on the spot attracted little notice at market on Tuesday.

Wheat is inactive, but last week's rates are maintained.

Provisions.—There is no new feature in bacon.—There is no active demand but the prospect is good for high prices. Hams dull.

The accounts of the state of trade in the Provinces show again a declining tendency.

☞ We are informed that the P. O. at Hamilton, (Centre of La Fayette county,) has been removed to the village of Darlington, on the river Pekatonika, and the name changed to Darlington. John S. Fassett has been appointed P. M.—*Mineral Pt. Tribune.*

Boston Nov. 25.

Another trial for election of Representatives was made in Massachusetts yesterday. Returns indicate that the Coalitionists have a majority in the state Legislature sufficiently to elect a Governor.

FIREMAN'S SONG.

COMPOSED AND DEDICATED TO MILWAUKEE FIRE DEPARTMENT,
BY MARY H. C. BOOTH.

Arranged for the tune—"*Roll on Silver Moon.*"

As we sleep when the moon in the heaven is high,
And the stars are twinkling higher,
We are waked from our dreams by the flashing gleams,
And the roar of the raging fire.

Then up! Boys, up! for the Fireman's heart
Is awake at the cry of Fire—
Then up! Boys, up! for the arrowy dart
Of the flame is shooting higher.

We rush, and we fly to the crumbling walls—
Oh, God! who is it stands
Behind the light, in her robes of white,
With her folded lily hands?

Then up! Boys, up! to the window bright,
On the ladder's slippery hold,
And a triumph song we will sing to night
Of the Fireman brave and bold.

A voice, brave boys, of the wildest woe
Is ringing far over the rest,
And we hear her shriek, as she lays the cheek
Of her babe to her heated breast.

Then up! Boys, up! to the window bright,
On the ladder's slippery hold,
And a triumph song we will sing to-night
For the Fireman brave and bold.

The hut of the Pauper is brightly ablaze—
Its flames are as light as the air;
We will put it out, with as glad a shout,
As the home of the *Millionaire.*

Then up! Boys, up! for the Fireman's heart
Is awake at the cry of Fire—
Then up! Boys, up! for the arrowy dart
Of the flame is shooting higher.

Row in Columbus.

Columbus, Nov. 24.

Last evening, between 8 and 9 o'clock, an Irish row took place at an Irish grocery near the corner of Front and Broadway. The City Marshal and several policemen repaired to the spot for the purpose of quelling the disturbance, when the rioters commenced firing upon them with pistols, and also using clubs freely. Mr. John Turney, the City Marshal was shot in the face and severely wounded on the head by a blow from a club. He is in a dangerous condition. Another officer was shot in the neck, and others more or less severely wounded.

The alarm of fire was given, and the fire companies repaired to the spot with their engines and a large number of citizens, and cleared the house by deluging it with water. Eight or ten of the rioters were arrested, and are now in jail. An attempt was made to pull down the building, but it did not succeed. The doors, window sash, &c. were destroyed but the crowd finally dispersed, and left the house standing.

The Message of the Governor of South Carolina to the Legislature, is brief and concise. It details the finances of the State. The assets of the Bank are put down at $5,113,254 and liabilities at $3,206,434. During the last year it divided 9 per cent. The Governor says he will sanction all legislative acts, and adjures them that since they had wished to resist, and ordered the State to arm when the hour should come, no wrong had been redressed, no indemnity given, and that under the much vaunted fugitive law, it cost four times the value of the slave to recover him, and others had lost their lives in attempting a reclamation.

He appeals to their pride and patriotism, and says that Government troops had been stationed on the coast to overawe and coerce them, and guns from Forts Pinckney and Moultrie were frowning upon Charleston. He concludes by saying, that party feeling should be buried in the present posture of affairs, and a union effected against the common enemy of their institutions and their honors.

BLOODY TRAGEDY.—Our city is much excited by the discovery this morning of the bodies of two individuals, who had evidently come to their death by violence. The victims are John Moore and Elizabeth Moore, his wife, who lived about five miles from this city, on the Delaware Turnpike. Moore was 40 and his wife 30 years of age. They had been out to a house-warming at a friend's, where they had drank until they had become very much intoxicated. Returning home, they are supposed to have quarreled, and Moore must have taken a double barreled fowling piece and blown off the right side of his wife's head. He then probably reloaded the gun, and placing it to his right side, by means of his foot discharged it, the ball entering near his heart. Mrs. Moore was found in the front yard, about five yards from the door, her head in a pool of blood. Moore was near the stove, in the house, the gun by his side, and when discovered, two little girls, two and a half and five years of age, were found standing by the side of their father, weeping. *Rum* was the cause of this bloody deed. The deceased previously appeared to live happily together and have never been known to quarrel. An inquest was held, and the verdict of the Jury was, that the wife came to her death by the hands of her husband, and that he came to his death by his own hands.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL
HAIR INVIGORATOR,

To Prevent Baldness, and to restore the Hair that has fallen off or become thin, and to cure effectually SCURF.

Prepared only by [illegible] JOHNSON, 151 E. Water-st.

FOR THE TOILET.

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a pure essence, which will nourish and invigorate the hair, never before attained, yet free from animal grease or essential oils. It draws the pores of the skin, creates a healthy action of the blood vessels, nerves, &c., which give to the hair, thereby preventing baldness and grey hair, entirely frees the scalp from dandruff and all other cutaneous diseases, disposes the hair to curl, and keep it so, will positively change the hardest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will cause the hair to grow, and is the most healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 2m

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacture, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the flue back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the store combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the air front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

STATE FAIR.

CRANE'S PATENT SOAP took the First Premium at the State Fair at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the American Institute. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it fully equal to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

JOHN DWIGHT & CO'S
SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effects—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

TAKE NOTICE!
PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used. In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and to them we say that one firm in New York (Troy) manufactured and altered over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and [illegible] advantage, luxury and economy of this Patent over all others, now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Mansion, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany State Fair, Erie county, Buffalo; Boston, Mass. State Fair, Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring st., 3 doors east of the American House, Milwaukee, where application for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodled on the above plan, will please leave their name with Mr. Birchard, at the above named place, who they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a community public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all other, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of the greatest importance, these Bedsteads are "Bug proof."

We find, too, that for cheapness, it does not cost any more than the common wood screw, the expense of the cord and sacking bottom being saved, and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

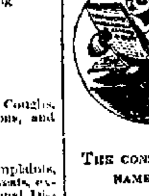
Loss of Appetite.



THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS!

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine Dr. Townsend's Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is a consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion,

RENOVATES THE BLOOD,

allays Nervous Excitement, and revitalizes the Whole Body with New Life.

Dr. JAMES R. CHILTON,

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoon fulls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.

Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they have experienced, in fitting in Hats that will not fit them. By this ingenious contrivance, the very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $5 hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, that they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
